Dear Resident,

Since 2011 we have been YOUR team at Chichester District Council during tough economic times. Best known is our work as leaders, building a Neighbourhood Plan over the last 18 months to control and manage our village's future development to benefit everyone.

Under Robert Hayes's chairmanship, with our volunteer colleagues, we have built this plan covering housing, the environment, commerce, transport, drainage and other aspects which affect us all. Bruce Finch has chaired public meetings with over 1100 Southbourne people, the largest public participation in living memory. Our shared success is already evident - the draft neighbourhood plan is already a significant factor controlling development.

At Council we work for you: Robert plays a vital role on the Planning Committee, he works with Graham in Overview & Scrutiny and Bruce works in the Corporate Governance committee ensuring every pound is spent wisely. In Southbourne, Robert is a school governor, Graham a trustee of Tuppenny barn and Bruce, a retired Royal Navy officer, has been a keen supporter of our military. We are all proud to fight for you, collectively and individually against the Council bureaucracy, winning rebates and getting better and faster decisions, getting better service for Southbourne.

We all know the next four years will see new challenges and our record over the last four years shows we are the best team to support Southbourne succeed.

Yours sincerely,

*Bruce Robert Graham*
